UP 35 Global

Factsheet
30/09/2026

Strategy description

The strategy, incepted by FLP UP, invests in bonds, equities and real estate with a focus on diversification. The investment funds making up the strategy are managed by various best-in-class managers. The investment funds are managed passively or actively, depending on asset class. This strategy's risk profile is balanced, consisting of a balanced allocation between equities and bonds, resulting in an average investment risk.

Legend: Performance is calculated on a monthly basis using a time-weighted return (TWR) applied to the investment portfolio, excluding operational cash. Returns are shown net of third-party management fees and custody charges. Foreign currency exposure is reported after taking hedging transactions into account. The ESG allocation reflects the share of investments in ESG-labelled funds, as defined by the respective fund managers.
